JENYA PROVIZ

Full Stack Web Developer Frontend oriented (React + TypeScript)

📍 Holon | 📞 050-8559917 | ✉ jenka.katz@gmail.com
🔗 LinkedIn | GitHub | Portfolio (on request)

TECHNICAL SKILLS

Frontend: React · TypeScript · JavaScript · HTML5 · CSS3 / SASS · Tailwind CSS · Bootstrap · Storybook
AI & Automation: OpenAI API · ChatGPT API · Cursor IDE · Intelligent Agents · Workflow Automation · SendGrid Templates
State Management: Redux · Context API
Backend & DB: Node.js · Express.js · MongoDB · REST APIs · SQL
Tools & Collaboration: Git · GitHub · Figma · Jira · WordPress
Languages: English (Upper-Intermediate) · Hebrew (Native) · Russian (Native)

PROJECTS

- **Blog Web App | React, Node.js, MongoDB, Express.**
  Developed a full-stack blog platform with authentication, post management, and responsive design.
  Implemented RESTful API integration between frontend and backend;
- **Job Pilot – AI-Powered Job Search Engine | React, Node.js, Tailwind.**
  Express Built a job search platform combining Google-powered search with real-time scraping from multiple sources.
  Integrated AI (MCP server) for intelligent job analysis and filtering;
  Implemented advanced pagination and smart keyword search across listings.

PROFESSIONAL EXPERIENCE

Junior Frontend Developer | Payouts 2024 - Present

- Developed and maintained an internal financial dashboard using **React and TypeScript**.
- Integrated **AI tools (Cursor, OpenAI API)** to enhance code quality, testing, and workflow automation.
- Migrated state management from **Context API** to **Redux**, improving performance by 40%.
- Created responsive **SendGrid email templates** with **HTML/CSS**.
- **Debugged and optimized UI** performance, reducing load time by ~25%.
- Collaborated with backend and QA teams in Agile sprints.

Production and Material Planner | Mars Antennas and RF Systems 2004 - 2024

- Led production and supply chain planning for 20 employees.
- Implemented ERP (Priority) optimizations to improve workflow efficiency.
- Coordinated with global suppliers and introduced process automation.
- Trained and mentored teams; standardized production documentation.

EDUCATION

- **AI Experts | Data Science, Machine Learning and Deep Learning | John Bryce College** 2025 - present
  440 hours of hands-on training in Python, Data Analysis (EDA), Machine Learning, Deep Learning, Generative AI, and Cloud Deployment. Practical experience with TensorFlow, Scikit-learn, Pandas, LangChain, and Docker through real-world AI projects including model building, optimization, and deployment.
- **Full Stack Web Development | HackerU College** *2022 – 2024*
  540 hours of intensive training in **React, Redux, JavaScript, TypeScript, HTML, CSS, Node.js, MongoDB, and REST API architecture.**
- **B.Sc. Industrial Engineering & Technology Management | Holon Institute of Technology (HIT)** ***2005 – 2010***
- **Practical Engineer | College of Management Academic Studies** *2002 – 2004*
