JENYA PROVIZ

Full Stack Developer Frontend oriented (React + TypeScript)

Holon | 050-8559917 | jenka.katz@gmail.com | LinkedIn | GitHub

Frontend Developer with 1+ year of experience building scalable web applications using React and TypeScript. Strong background in industrial engineering and production systems, bringing analytical thinking and problem-solving into software development. Experienced in full-stack development and integrating AI-powered features into real-world applications. Focused on building clean, responsive UIs and improving performance and maintainability.

TECHNICAL SKILLS

Frontend: React · TypeScript · JavaScript · HTML5 · CSS3 · SASS · Tailwind CSS · Bootstrap · Storybook
AI & Automation: OpenAI API · AI-assisted development (Cursor) · API integrations
State Management: Redux · Context API
Backend & DB: Node.js · Express.js · MongoDB · REST APIs · SQL · Python
Tools & Collaboration: Git · GitHub · Jira · Figma · WordPress
Business & ERP Tools: Excel · Priority ERP · SendGrid
Languages: English (Upper-Intermediate) · Hebrew (Native) · Russian (Native)

PROFESSIONAL EXPERIENCE

Production Planner & Control and Priority Implementer | Elmul Exosens Group December 2025 – Present

Junior Frontend Developer | Payouts August 2024 – November 2025

- Developing and maintaining an internal financial dashboard using **React and TypeScript**.
- Built **reusable UI components** and improved application structure for scalability.
- Integrated **REST APIs** and handled asynchronous data flows.
- Managed state, **API integration**, and UI logic using **React hooks** and **Redux**.
- Migrated state management from **Context API** to **Redux**, improving scalability and maintainability.
- Developed responsive email templates using **HTML/CSS** (SendGrid).
- Identified and fixed UI issues, improving performance and user experience.
- Integrated AI tools (**OpenAI API, Cursor**) to improve development, workflow and productivity.
- Collaborated with backend developers and QA in Agile development cycles.

Production and Material Planner | Mars Antennas and RF Systems 2004 - 2024

- Led production and supply chain planning for 20 employees.
- Implemented ERP (Priority) optimizations to improve workflow efficiency.
- Coordinated with global suppliers and introduced automation processes.
- Trained and mentored teams; standardized production documentation.

EDUCATION

- **2025 - present | AI Experts | Data Science, Machine Learning and Deep Learning | John Bryce College**
  440 hours of hands-on training in Python, Data Analysis (EDA), Machine Learning, Deep Learning, Generative AI, and Cloud Deployment. Practical experience with TensorFlow, Scikit-learn, Pandas, LangChain, and Docker through real-world AI projects including model building, optimization, and deployment.
- ***2022 – 2024* | Full Stack Web Development | HackerU College**
  540 hours of intensive training in **React, Redux, JavaScript, TypeScript, HTML, CSS, Node.js, MongoDB, and REST API architecture.**
- ***2005 – 2010* | B.Sc. Industrial Engineering & Technology Management | Holon Institute of Technology (HIT)**
- ***2002 – 2004*** | Practical Engineer | College of Management Academic Studies
